FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the State Treasurer** assume this proposal would have no fiscal impact on their organization.

Officials from the **Office of Administration, Division of Budget and Planning** (BAP) assume this proposal would not result in added cost to their organization. BAP officials stated that the Department of Revenue should provide the estimate of possible increased costs to GR as a result of the reduced time before interest is paid on overpayments of tax from four months to 90 days.

Officials from the **Department of Revenue** (DOR) assume this proposal would require their organization to pay interest on personal income tax overpayments if refunds are not made within 90 days, instead of 120 days as allowed by current provisions.

This would create a negative impact on Total State Revenue. In a normal processing year, when DOR is fully staffed, DOR would expect these provisions to have a negative impact of \$294,130. However, in a calendar year like 2009, in which DOR had a reduction in staff, DOR officials estimated a negative impact of \$315,416 for these provisions.

DOR provided an estimate of the fiscal impact for these provisions including two additional employees and related benefits, equipment, and expense totaling \$79,301 for FY 2011, 84,162 for FY 2012, and \$86,689 for FY 2013.

Oversight notes that the DOR estimate of cost included two additional employees as well as the DOR estimate of additional interest paid on late refund payments. Oversight will indicate a revenue reduction of more than \$100,000 per year for this proposal beginning with FY 2011. Oversight assumes that a full year impact would be incurred in FY 2011 since the proposal includes an emergency clause. The proposal would become effective on approval by the General Assembly and the Governor, and refunds in FY 2011 would be subject to the new provisions.

DOR officials stated that their organization and OA-ITSD (DOR) would need to make programming changes to the Corporation Income Tax System (COINS), the Corporate and Franchise (Tax) Entry System (CAFÉ), the Case Audit Management System (CAMS), the Withholding System (DWIT) and the individual income tax system (MINITS).

ASSUMPTION (continued)

DOR officials estimated that the IT portion of the fiscal impact to implement the proposal would be \$4,452 based on 168 programming hours for modifications to the department's tax systems.

Oversight assumes OA-ITSD (DOR) is provided with core funding to handle a certain amount of normal activity each year. Oversight assumes OA-ITSD (DOR) could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, OA-ITSD (DOR) could request funding through the appropriation process.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

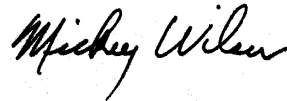

FISCAL DESCRIPTION

This proposal would reduce the time period before interest is paid on tax refunds.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
